ABOUT US

Power Build Construction Equipments & Machinery Spare Parts Supply

Power Build supplies construction equipment and machinery spare parts for contractors, equipment rental companies, fleet owners, and maintenance workshops. We provide both OEM and high-quality aftermarket spare parts for construction machinery, with a focus on reliable sourcing, competitive pricing, and timely delivery.

With our own steel fabrication facility, we are also capable of supplying fabricated attachments and components such as buckets, brackets, supports, guards, frames, and other customized steel items as per project or machine requirements. Our combined strength in spare parts supply and fabrication helps customers reduce downtime and maintain their equipment efficiently.
